FIREPOCTEP SESSION--Reassessment of agroforestry residues for clean energy production

Strengthening of cross-border systems for the prevention and extinction of forest fires and improvement of resources for the generation of post-Covid-19 rural employment (FIREPOCTEP).

0756_FIREPOCTEP_6_E. Project co-financed by Fondo Europeo de Desarrollo Regional (FEDER), in the framework of the program Interreg V A España – Portugal (POCTEP) 2014-2020.

Date: Tuesday 27 September 2022

Time: from 10:00h to 12:00h (Brussels time)

Event organized by: Finnova Foundation (www.finnova.eu)

CAPITALISATION OF RESULTS (ACTIVITY 4) AND COMMUNICATION (ACTIVITY 6) DAY OF THE PROJECT FIREPOCTEP

The main objective of the proposed session is to show the impact of climate change on fire risk and its effects in the Raya area (border between Portugal and Spain). To this end, joint tools will be created to facilitate risk management in the cooperation territory through the capitalisation of results, knowledge and good practices. FIREPOCTEP will not only improve the cooperation and coordination of fire brigades, but will also serve as an example of best practices in circular economy for obtaining energy from forest plant residues, for which training actions for citizens and joint tools will be carried out. It will be created to facilitate risk management in the cooperation territory, as well as the communication and dissemination of the results and of the project itself.

10:00h
10:20h

INAUGURATION AND WELCOME TO THE EVENT

INAUGURATION AND WELCOME TO THE EU SUSTAINABLE ENERGY WEEK 2022

10:00h
10:10h

Juan Antonio Ruso, FIREPOCTEP Project coordinator. Department of Sustainability, Environment and Blue Economy. Directorate General for Forestry Policy and Biodiversity. Regional Government of Andalusia. 🇪🇸

- *Presentation of the project FIREPOCTEP. Contribution of the project to the European Energy Week.*

10:10h
10:20h

Juan Manuel Revuelta, General Director of the Finnova Foundation. 🇪🇸

- *Moderation of the event and annotations of the most important points.*

10:20h
11:35h

BLOCK 1. CAPITALISATION AND GOOD PRACTICES IN SUSTAINABLE ENERGY RECOVERY FROM FOREST RESOURCES.

10:20h
10:35h

Manuel Fernández Martínez. Forestry Engineer. Professor at the University of Huelva. 🇪🇸

- *Presentation of good practices of the Interreg project CILIFO.*

10:35h
10:50h

Pedro Orgeira Crespo. Associate Professor. Area of Aerospace Engineering, Department of Mechanical Engineering, Thermal and Fluid Machines and Engines. University of Vigo. 🇪🇸

- *Presentation of good practices of the Interreg project FireRS.*

10:50h
11:05h

Alberto López Casillas, Alberto López Casillas. Technician in the area of European affairs, energy and tourism, Provincial Council of Ávila. 🇪🇸

- *Presentation of good practices of the Interreg project GEFRECON.*

UNIÓN EUROPEA
UNIÃO EUROPEIA

Finnova

11:05h Joaquín Cobos Sabaté, Researcher at Doñana Biological Station, Spanish National
11:20h Research Council. 🇪🇸

- Baterías y energía para los centros de los parques naturales

11:20h Pablo Martins, Technical expert in Algarve Regional Energy and Environment
11:35h Agency (AREAL). 🇵🇹

- Energy certification of buildings in natural and rural areas.

11:35h
11:55h

BLOQUE 2: SESSION: EUROPEAN FINANCING FOR INNOVATIVE SOLUTIONS DE VALORIZACION ENERGETICA PROCEDENTES DE LOS RECURSOS FORESTALES

11:35h José Manuel Requena, European Project Manager and FIREPOCTEP project
11:40h coordinator, Finnova Foundation. 🇪🇸

- Interreg Med opportunities for forest fire prevention and extinguishment.

11:40h Carla García, Project officer, Finnova Foundation. 🇪🇸

11:45h *Presentation of the Clean Energy transition Sub-programme of the LIFE programme. Examples of good practices in the field of sustainable energy.*

11:45h Sergio Triviño, Project officer, Finnova Foundation. 🇪🇸

11:50h *Presentation of the Circular Economy and Quality of Life sub-programmes of the LIFE programme. Examples of good practices in the field of sustainable energy.*

11:50h Agustín Quesada, Project officer, Finnova Foundation. 🇪🇸

- *Presentation of the Climate Change Mitigation and Adaptation Sub-programme of the LIFE programme. Examples of good practices in the field of sustainable energy.*

11:55h
12:00h
